Damian Hinds Statement on Local Government Financial Settlement

“Any loss of central Government grant funding for our local councils is reg, especially as both the District Council and the County Council are exemplary bodies.

But of course we do have to be realistic about the national economic situation. I know that the councils have rightly been making preparations for reduced funding and I am sure they will do all they can to minimise the frontline impact.

The government are encouraging local authorities to look at sharing management structures and it is very good that EHDC are well ahead of the game on this.”
